**3-D
EFFECTS**

Challenge the ever turning road with your greatest speed. But be careful, you're not alone on the road. A true three-dimensional car is constantly coming at you. Crashing into this car causes a spectacular three-dimensional crash in which you see true actual parts of the car exploding and spinning off into the distance.

Stay on the road or you can also crash, which brings up a cracked windshield. All crashes stop game play with no loss of time, although the driver must get back up to speed by shifting through the four gears.

All this plus a four-speed gear shift, realistic scenery, hitchhikers and various other objects enhance the game. Add to that, extended play feature, selectable coinage and the ever popular Vector Monitor you have the greatest single player upright driving game ever built.
